REPORT OF SUPERINTENDENT OF SCHOOLS

The schools of Holderness are being carried on under the same staff of teachers as last year. The current teacher shortage about which so much is reported by the newspapers, has not affected our community up to this time; and we still are fortunate enough to have teachers in all our schools who are thoroughly prepared for their work and have had years of experience. It is to be hoped that we can afford to retain the services of these teachers—or others equally well prepared—in these days of higher taxes, higher prices, and inevitably higher salaries.

Fundamental teaching of reading, writing, arithmetic, spelling and the like go on in war time as always. Geography has taken on a new interest as boys from our town are stationed in distant parts of the world. Weekly newspapers, written on the level of the various school grades, provide timely material for the study of current events. An effort is made to distinguish between true and false impressions in the propaganda which comes to our attention constantly.

The work of the schools in developing good attitudes of citizenship and patriotism, and in giving children a thorough background of fundamental skill and knowledge, is recognized as a necessary wartime activity. The War Production Board gives the schools a high priority rating for the purchase of supplies and materials; the War Manpower Commission rates teaching high on the scale of necessary work. In fact, we all realize that Hitler and other dictators worked for years to educate their followers while they were still young children, so these boys would become loyal soldiers later on. Winning this war for the Allies

must depend largely upon men and women already out of school; winning the peace, and preventing future wars, will depend in great measure upon the wisdom of those who are now in schools. The teacher in these days has indeed a grave responsibility.

Respectfully submitted,

ALMON W. BUSHNELL,

Superintendent of Schools.
